Bowel Cancer Screening Key Messages

**ANSWER
CANCER**

Key Messages:

If it's unusual for you – see your GP

We all know our own bodies. If you notice anything unusual in your bowel habits, lasting 3 weeks or more, see your GP.

3 weeks is a guide. Changes could be due to an illness, a change in medication, stress, or a change in diet. **Don't leave it any longer than 3 weeks.**

Early detection saves lives

Those who regularly complete their bowel cancer screening kit, will have any early changes picked up by their bowel screen test. Usually **before** changes turn into cancer.

Bowel cancer screening saves lives

Bowel cancer screening aims to find any changes in the bowel early **before** they have had chance to become cancerous.
