Cancer Screening Key Messages

Key Messages:

If it's unusual for you – see your GP

We all know our own bodies so if you notice anything unusual, book an appointment to talk through your concerns with your GP.

Early detection saves lives

People who regularly attend for screening or who go see their GP when they notice anything unusual, will have any changes picked up early. Treatment options and health outcomes will usually be better for them.

Cancer screening saves lives

People who regularly attend for screening are more likely to have any early changes in their body picked up **before** they turn cancerous.
